

ANIMAL MANAGEMENT

Welcome to our Animal Management newsletter specially created for you to see what's happening in the department you will be joining this September.

Our students have been working harder than ever, despite the lockdown restrictions, which meant new ways of study from home for much of the year.

Highlights include some great university offers and the annual trip to Crufts.

DISCOVERING DOGS AT CRUFTS

Students visited day one of Crufts to learn more about showing and handling mans' best friend.

They witnessed Lemon the border collie winning the British Open Agility with the main focus for the day on the Toy and Utility Groups. Miniature poodle Ch Minarets Best Kept Secret, better known as Frankie, won the utility group, while Pablo the bichon frise took top prize in the Toy group.

The trip was the perfect platform for students to network with animal industry experts and experience the thrills and spills at the world's premier canine calendar event.
